IT Security Policy

Policy Statement & Objective:

"Company systems and devices must be used responsibly and securely."

Detailed Guidelines & Requirements:

- **Device Security & Passwords:** Company-provided workstations must be protected with strong passwords and multi-factor authentication (MFA).
- **Software & Downloads:** Employees are strictly prohibited from installing unauthorized software or modifying system security configurations.
- **Phishing & Threat Awareness:** Suspicious emails, links, or hardware devices must be reported immediately to the IT Security Team.
- **Clean Desk & Screen Lock:** Workstations must be locked whenever stepping away, and physical documents containing sensitive data must be locked away.
